Dear Uncle,

Salam, I received the wishing letter you sent to me on my birthday, along with a very precious gift for me! Wow, you gifted me with a High-Profile Graphics Processing Unit (GPU) for my Development work! You know, many of my relatives gave me Gifts, I liked them too. But this one is unique and most important for me, as I needed this.

You know my Uncle, I was seriously in need of such GPU, with Great Performance, and High in Quality. My old Computer system wasn't enough to do the development work I do, which requires high processing power and graphical memory. Seriously, if I haven't got this GPU in some days, maybe I couldn't be able to continue my Job efficiently. I am very thankful for you for such a Great gift you sent me.

From now on, I can continue my Job with much better efficiency and more perfectly. Thank you very much for this gift, I liked this from my heart. I prefer your gift to all other gifts I received from others.

I hope all the family members there will be alright. Please convey my Salam to all the family members. I will be very thankful to you. Again, thanks for such a nice gift.

Your Nephew,

Muhammad Ammar
